About This Game

1971 : Indian Naval Front is a Naval Combat game made as a tribute to the Indian Navy towards their contribution during the 1971 India-Pakistan War.

*1971 was a year filled with diplomatic tensions between India and her neighbour Pakistan. As the atrocities by the Armed Forces from West Pakistan against the people of East Pakistan kept increasing, **Indira Gandhi**, the then **Prime Minister of India** decided to act on it and determined to liberate **East Pakistan(Bangladesh)** as an independent country. During the months of **October and November** in 1971, Indian Navy sent her famed aircraft carrier **INS Vikrant** and few more powerful vessels to create a blockade against the naval vessels of **West Pakistan** and her **allies** in the **Bay of Bengal** to the East. Pakistan Air Force, on 3rd December, attacked multiple Indian airfields along the North and North West regions of India.*

The War had now officially begun!

*In retaliation, the Indian Navy sent 3 of her **Osa-I class missile boats** in an operation codenamed **Operation Trident** with an objective to destroy the **Karachi Harbour**. **Operation Trident** was a resounding success! After this point, major naval operations were kicked off in both the **Eastern and Western waters**; an encounter with the Pakistan Navy's **Submarine PNS Ghazi** being one of them. Indian Navy's fighter jets like the **Hawker Seahawk** were also used to destroy many East Pakistani Airfields and Harbours like **Chittagong** and **Cox Bazaar**.*

*On 16th December, Pakistan eventually signed the **Instrument of Surrender** and **Bangladesh was declared an independent country**.*

1971 : Indian Naval Front will enable you to experience pretty much all the Indian Navy operations executed during the 1971 War including transmission of intel through morse codes!

Features

- Play with iconic ships of the Indian Navy like INS Vikrant, INS Rajput, INS Brahmaputra, INS Veer, etc.
- Experience real world missions in the form of a campaign like Operation Trident, taking out PNS Ghazi, destruction of airfields, etc.
- Wreak havoc from the air using the Hawker Seahawk of Indian Navy.
- Fly the classic Westland Seaking helicopter for recon and search and rescue missions.
- 15 levels of naval and air combat missions.
- Transmit Morse Codes to deliver intel as part of the Military Intelligence team.
- A Quick Battle mode with preset scenarios and classic time-trial modes.
