About This Game

Cogs is a puzzle game where players build machines from sliding tiles. Players can choose from 50 levels and 3 gameplay modes. New puzzles are unlocked by building contraptions quickly and efficiently.

- **Inventor Mode:** Starting with simple puzzles, players are introduced to the widgets that are used to build machines ☐ gears, pipes, balloons, chimes, hammers, wheels, props, and more.
- **Time Challenge Mode:** If you finish a puzzle in Inventor Mode, it will be unlocked here. This time, it will take fewer moves to reach a solution, but you only have 30 seconds to find it.
- **Move Challenge Mode:** Take your time and plan ahead. Every click counts when you only get ten moves to find a solution.
